Water in Tanzania

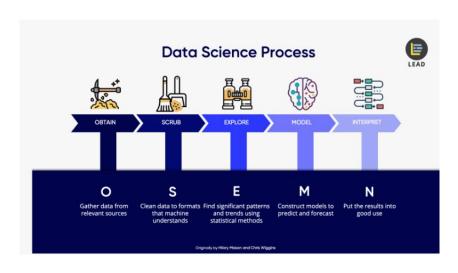

Predicting Conditions of Water Wells with a Machine Learning Classifier

Problem Statement

- Availability of clean and potable water is vital
- Important to ensure that water wells are working
- Develop a Machine Learning Classifier to predict the conditions of water wells
 - Functional
 - Functional but needs repair
 - Non-Functional
- Helps to improve maintenance operations

Model Development

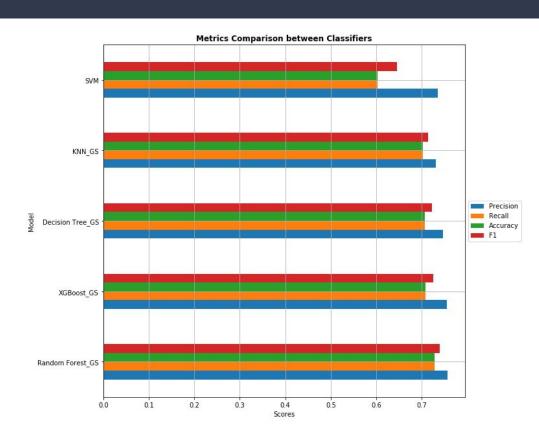

- Original data is provided by Taarifa and Tanzanian Ministry of Water
- 39 estimators to predict the conditions of water wells
- Follow OSEMN Framework
 - Obtain
 - Scrub
 - Explore
 - Model
 - Interpret

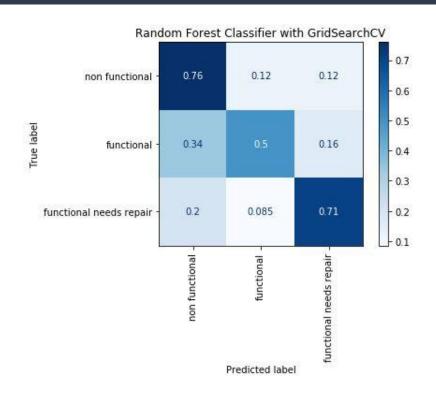

Model Selection

- Developed 5 different Classifiers
- Based on Accuracy and F1 scores

Model	Precision	Recall	Accuracy	F1
Random Forest_GS	0.757020	0.728754	0.728754	0.740070
XGBoost_GS	0.755069	0.707811	0.707811	0.724816
Decision Tree_GS	0.747335	0.706801	0.706801	0.722288
KNN_GS	0.730554	0.703165	0.703165	0.713880
SVM	0.735454	0.603367	0.603367	0.645695

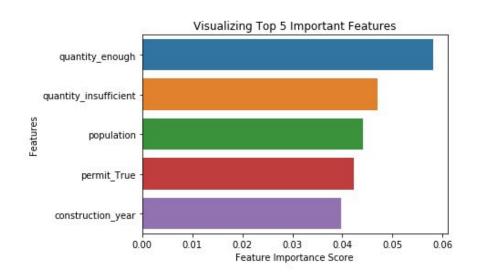

Random Forest Classifier

Training Data					
Control of the State of the Control		precision	recall	f1-score	support
functional		0.81	0.81	0.81	24161
functional needs repair		0.83	0.90	0.87	24161
non functional		0.89	0.82	0.86	24161
accuracy				0.84	72483
macro .	avg	0.85	0.84	0.84	72483
weighted	avg	0.85	0.84	0.84	72483
Testing Data					
\$55d		precision	recall	f1-score	support
functional		0.80	0.76	0.78	
Tulle CIO.		TO THE R. P. LEWIS CO., LANSING, MICH.	0.,0	0.70	8098
functional needs rep	air	0.28	0.49	0.36	8098 1074
functional needs rep	nal	0.28	0.49	0.36	1074
functional needs rep non function	nal acy	0.28	0.49	0.36 0.75	1074 5678

Important Estimators

- 81 estimators including dummies
- Impurity-based feature importances
- 1 estimator with over 0.05 importance
- 3 estimators between 0.05 and 0.04
- 3 estimators between 0.03 and 0.04

Areas of Further Improvement

- Get a better understanding of estimators
- Use a broader range of hyperparameter inputs
- Construct the classifier with all the original features
- User more complex ensemble models (e.g. Stacking)

The End

Thank you
